

Early Years Conference Script Cards Order Form

These high colour, pocket-sized cards contain easy to follow restorative conference scripts that have been modified from the 'grown up' (standard) restorative script. These individual and small group scripts have been developed for use with early years children and/or children with language difficulties.

Many children don't have the language development needed to engage with standard conference scripts. These kids need shorter (less wordy), more concrete questions. These scripts lessen the receptive language demands so children are more able to focus on *what happened*, their feelings, other peoples' feelings and ways the problem might be sorted out.

These scripts are the result of years of trial and error in early years settings and are our best effort to assist our early years colleagues to develop children's empathic awareness of others, *sooner rather than later*.
