

The GRAB and GO Circle Time kit

for teaching Restorative Behaviour: 13 Sessions for Junior Primary

Thinking and Behaving Restoratively doesn't *come naturally* to all kids. Restorative Practices is a way of thinking about people and events and it's a frame of reference that we can teach to young people. What's the result? Calmer, more peaceful and more productive classrooms and playgrounds. Evidence shows that schools that actively teach Restorative Thinking and Behaviour to students report less bullying behaviour, less anxious kids, less anxious parents and happier teachers.

The Grab and Go Circle Time Kit for Teaching Restorative Behaviour is unique. We've harnessed the Circle Time pedagogy, (also known as Circle Solutions) to create thirteen wonderful sessions to actually teach Junior Primary Students how to *think* and *behave* restoratively. Packed with wonderful illustrated stories and resources for use in the sessions, busy teachers can literally pick this manual up and run with it!

Session Outline

These 13 fun and easy to follow circle time sessions cover important restorative principles

- *Our Circle Time rules*
- *Inside and outside hurts*
- *Accidental and intentional hurts*
